INTRODUCTION.

THE Tanjore Mahārāja Serfoji's Sarasvatī Mahāl Library, which is described by Dr. Burnell "to be perhaps the largest and most important in the world" and which Dr Buhler says "contains a great many useful and a number of very rare or nearly unique books many of which are quite unknown or procurable only with great trouble and expense" was till recently the private property of the Rājas of Tanjore.

The earliest beginnings of the Library must have been about the end of the 16th century when Tanjore was under the rule of Telugu Nāyaks who collected Sanskrit Manuscripts written in Telugu character. In the 18th century the Mahārāṭhas conquered the country and since that date the Library has been increasing. By far the greater portion of the collection was made by Serfoji during a visit to Benares during 1820—1830. Śivāji his successor added a few. There has practically been no addition of any value till very recent times. A good number of Sanskrit Manuscripts including rare and valuable manuscripts representing the collection of generations of a family of scholars, known as the "Jambunātha Bhaṭṭa Lāṇḍagai Collection" was added to the Library in 1921.

Regarding the origin and importance of this collection, Dr. Hultzsch has the following interesting information in No. III "Reports on Sanskrit Manuscripts in Southern India", edited by him in 1905 at Madras :—

"The manuscripts described in this Report belong to Jambunātha bhaṭṭa, a Mahārāṭha Brāhmaṇa at Tanjore, who is the eldest son of a certain Mannambhaṭṭa. He is a no mean Sanskrit Scholar and knows the whole Ṛgveda by heart. As he is continually teaching the text of this sacred book to students, even his blind daughter has learnt to recite portions of it. The existence of his Library

was brought to my notice by Mr. T. S. Kuppuswāmi Śāstrī, of the Educational Department, who is favourably known to Sanskritists by his paper on Rāmabhadra Dīkṣitar. During my absence on furlough in Europe, my First Assistant, Mr. V. Venkayya, M.A., was deputed to Tanjore in order to catalogue Jambunātha's collection. He spent three months at this work, in which he received the valuable aid of Mr. Kuppuswāmi Śāstrī. Both the list and the extracts testify to the thoroughness and care with which he has accomplished his task. From his *Annual Report* on Epigraphy for 1898—99 I quote the following details about Jambunātha's collection :—

“He is the eldest of the three brothers and is descended from a family whose influence is reported to have been very great when the Mahrāṭha Kingdom of Tanjore was in existence. When manuscripts were obtained for the Palace Library from Benares and other places in Northern India, the ancestors of Jambunātha bhaṭṭa appear to have systematically used their influence to make their collection of Sanskrit works. This accounts for the existence in this collection of a large number of ancient manuscripts evidently copied in Northern India. The texts were transcribed by the members of the family, who appear to have been learned men. This, according to the present owner of this Library, was how this collection came into existence. The manuscripts are all written in Nāgarī characters and on loose sheets of paper. Having been frequently handled by ignorant and careless men the manuscripts became mixed up, and the owner, who despaired of restoring order among them, made them into bundles and tied them with cloth. About two years ago, Mr. Kuppuswāmi Śāstrī, to whom examination of Sanskrit manuscripts is a labour of love, prepared a tentative list of the contents of these bundles. When I went to Tanjore on the 2nd January, Jambunāthabhaṭṭa showed me about one hundred of these bundles. A cursory inspection of them satisfied me that the Library was an important one, and it should be carefully examined. This meant that not only should these works which were still complete be registered in my list, but that an attempt should also be made to put together pieces which, through careless handling, had got out of their places.”

III

In 1922, the Library received other valuable collections of rare interest, known as the "Kagalkar" and the "Pataṅga Avadhūta" collections. The former is about 150 and the latter, about 100 years old. The collection made by the Kagalkar Family of learned Sanskrit Scholars of Tanjore especially versed in Sanskrit Grammar (व्याकरणम्) contains the autograph copies made by some of them of the works composed by themselves and others. Its prominent feature is the collection of works on Sanskrit Grammar. The collection made by Pataṅgāvadhūta whose descendants settled at Tiruvaḍamarudūr in Tanjore District contains a large number of works on Vedānta (वेदान्तम्) and Bhakti (भक्तिः). Both these collections comprise several Manuscripts which do not already exist in this Library.

The attention of the Government of India and through it of the Government of Madras was directed in 1868 to the importance of the examination, purchase or transcription of Sanskrit Manuscripts in Indian Libraries and the framing of printed lists or catalogues of the same. (Proceedings of the Government of India in the Home Department (Public), No. 4338-48, dated Simla, 3rd November 1868).

In respect of magnitude as well as the range of subjects dealt with, not to speak of the diversity of languages employed, the Tanjore Library is probably second to none among Oriental Libraries in India.

In December of the same year, the Government of Madras asked Mr. Pickford, Professor of Sanskrit, to carry out the instructions of the Government of India. He commenced to catalogue the manuscripts at Tanjore but he fell seriously ill and had to return to Europe in March 1870 and never came back to India. It is not known how much he had done as his unfinished catalogues could not be found. (Letter from the Professor of Sanskrit, Presidency College, Madras, to the Chief Secretary to the Government of Madras, 22nd May 1876, and Letter No. 1560, dated Madras, 7th June 1876, from the Director of Public Instruction Madras, to the Chief Secretary to the Government of Madras.)

Thereupon Dr. Burnell, District and Sessions Judge, was appointed in G.O. No. 71, dated 16th March 1871, to catalogue the

IV

Sanskrit Library at Tanjore. That learned Scholar devoted a great deal of research and labour to the task and his catalogue which he styled "A classified Index to the Sanskrit Manuscripts in the Palace at Tanjore," was published in three parts between 1878 and 1880 in London. This is now the chief key to the huge Sanskrit collection in this Library. But unfortunately a great many manuscripts, above 4,000, seem to have been omitted and his catalogue cannot be said to be complete.

During the course of his preparation of the catalogue Dr Burnell wrote to the Chief Secretary to the Government of Madras from Bangalore on 6th August 1878 as follows :—

"It may perhaps be asked if the Library is worth the labour spent on it. I can answer unhesitatingly that it is. It is now a recognised fact that nearly all Sanskrit works of importance exist in different recensions. The Tanjore Library is unrivalled in this respect ; it contains several good manuscripts of all the most important ones known as yet, including a few that are new.....The Tanjore Library, however, contains additional manuscripts of most of the works which I had discovered elsewhere, and this is a matter of great importance.

I believe that this Library must, sooner or later escheat to the Government. The preparation of this catalogue will therefore protect property of enormous value. Sanskrit Manuscripts have long been very dear and the cost of making proper transcripts is now very heavy. As far as I can judge, it would not be possible to form a collection like that at Tanjore at a less cost than £50,000 but many manuscripts are unquestionably unique."

The Tanjore Mahārājā Serfojī's Sarasvatī Mahāl Library is now a public library in the full sense of that term, the Government of Madras through the Treasurer of Charitable Endowments, being responsible for its administration. The collection belonged to the reigning princes of Tanjore—the Mahārāṭha Mahārājas. When the last of them died leaving no direct male heir and after the death of the last surviving Rāṇi this collection together with the other properties formed the subject of litigation in civil courts. There was a rumour a few years ago that the collection had attracted the

attention of some wealthy patrons of learning from Overseas. And it would appear that arrangements were very nearly ready to sell the whole collection outright at an assessed value, when public attention was focussed on certain remarks of Dr. Burnell to the effect that "it would not be possible to form a collection like that at Tanjore at a less cost than £ 50,000". The parties concerned had perforce to wake up and the deal was not immediately concluded. The public of Tanjore also began to interest themselves in the affair adequately. It was rightly considered as a question of National pride. The parties in O. S. No. 26 of 1912 on the file of the Subordinate Judge of Tanjore agreed that it was eminently fit that the Library should be preserved and maintained as a public Library in trust for the public and removed the Library and one lakh of rupees to provide for its upkeep, from the subject-matter of the suit. The Government of Madras in G. O. No. 1806 Home (Education), dated 5th October 1918, accordingly took possession of the same under the Charitable Endowments Act and have framed a scheme for the management of the same.

Since the Library became a Public Trust there has been a marked improvement in the reception accorded to it by the public. Various liberal and generous-minded benefactors have come forward with magnanimous offers. The Library has been enriched with several very fine collections of manuscripts, every one of them rare, valuable and very interesting. The Kagalkar collection, Jambunātha Bhaṭṭa Lāṇḍagai collection and the Patañga Avadhūta collection—all these three alone number 2181 manuscripts. Besides these, the Tygarāja Svāmi collection which alone contains more than 1000 manuscripts; then the minor collections—the Subrahmaṇya Śāstri collection, Subrahmanya Rao collection, Ramachandra Gaṇapati collections—all are of great and paramount importance.

The manuscripts are either on palm leaf or on paper. They are of very different value and come from very different sources. A large collection of these are recent Nāgarī copies of Manuscripts in South Indian characters and are at least a century old.

These manuscripts are in more than eleven distinct alphabets being from all parts of India. On the whole, one may easily say that the total number of manuscripts now in this Library is likely to exceed 30,000.

A large number of original records belonging to the last reigning house of Tanjore which will be of very great importance for reconstructing the political and social history of the Mahraṭha rule in Southern India has recently been transferred to the care of this Library from the Civil Court by order of the Judge.

Besides these manuscripts there are also a number of books and Manuscripts in almost all the Indian and European languages and on almost all branches of human knowledge. Special mention may here be made of the books and manuscripts in Telugu, Tamil, Mahrāṭhi and English on account of their number and importance.

Dr. Burnell issued what he modestly styled "A classified Index to the Sanskrit Manuscripts in the Palace at Tanjore," between 1878 and 1880. Between 1880 and 1918 for very nearly forty years, the Library has been the victim of many an outrage. Those who were in possession gave out on loan very many manuscripts which were never returned. And many more somehow or other, found themselves into Libraries other than at Tanjore. Dr. Burnell's catalogue is very useful to us to trace out lost manuscripts, which are never likely to come back to us. Our losses are probably far more : for even Dr. Burnell's admirable catalogue was by no means a complete catalogue of all that existed. For, where he mentions a single work in a bundle, we are able to-day to trace two or more works in the same bundle.

The Committee appointed by the Government of Madras took charge early in 1919. Since then, they have been busily pushing forward the work of revising and preparing a fresh catalogue of all the works now in the Library according to the latest scientific methods. Each work is described in detail in a card-index-form which contains all the necessary particulars.

In 1920 a Catalogue of printed books in French, Latin, Italian and Greek was published. In 1926 three volumes of a Catalogue of Tamil Manuscripts in the Library were published. These are now on sale and can be had from the Secretary of the Library.

The Administrative Committee of the Library approached the Government of Madras, year after year with the request for a special grant to enable them to prepare and publish a descriptive

catalogue of the Sanskrit Manuscripts in this Library. In their G. O. No. Mis 563 Dated 9th April 1927, the Government of Madras were pleased to allot the necessary funds for a three-year programme for carrying out the long delayed desire of the Committee. The work of cataloguing and printing has since been pushed forward with great rapidity.

The First Volume of the Descriptive Catalogue of Sanskrit Manuscripts is now published. The first Volume contains notices of 697 Manuscripts belonging to the Veda Section. The Veda section is expected to comprise in all about 2000 Manuscripts and will be completed in three Volumes. The third and last Volume will contain a detailed introduction to all the Manuscripts contained in the Veda Section besides the various indexes and other useful information.

In issuing this Catalogue, I have great pleasure in acknowledging gratefully the loyal and ever-ready assistance I have been uniformly getting from Rao Sahib. T. Sambamurthi Rao avl. B.A. B.L. the energetic Honorary Secretary of the Library and the permanent staff working under him, on whom and on the special staff sanctioned by Government have fallen all the arduous and exacting work connected with the rapid preparation of the work for the Press.

References to both kinds of classification are given wherever necessary.

The wives of the sages continue to follow the Lord wherever He went, even forgetting their clothes, whereupon the sages grow angry and perform Ābhicārika homas invoking various evil spirits to destroy the Lord. From the homa arise the all-consuming Bāḍaba-agni which finds refuge in the Lord's palm, the tiger which is slain and whose skin adorns the waist of the Lord, the deer which perches itself on the Lord's left hand, the serpents which decorate the Lord coiling round His body, the axe which is received by the Lord as a weapon and the demons who are promptly trampled upon by the Lord with His feet.

Indra accedes to the request of the Kings of Cera and Cola for plenty of rain but refuses the same to the King of the Pāṇḍyas as King Ugrapāṇḍya was insolent enough to seat himself on an equal seat with him. Indra and Ugrapāṇḍya fight each other. Ugrapāṇḍya uses his second gift—the divine bangle referred to in No. 62 and chops off the crown of Indra. This incident is illustrated in full detail as

narrated in the Tiruvilayāḍalpurāṇam. The last page is beautifully illustrated with flowers.

This incident is also narrated in Puṇḍarikapura Māhātmya to have taken place in Tejañi Vana, or Modern Tediya, near Kumbhakonam. Compare:—

The title page pictorially illustrates another incident from the Śivapurāṇa. Once Brahmā woke up the sleeping Viṣṇu and accosted Him “child, wake up.” At this, Viṣṇu grew angry; and both decided to fight out the issue. The Gods grew frightened at the unpleasant turn of events, and prayed to Paramaśiva to put a stop to the duel. Paramaśiva thereupon appeared on the scene in the form of a Jyotirlinga standing in full enveloping heaven and earth. Brahmā and Viṣṇu were now convinced of another being greater to themselves, stopped fighting and looked wonder-stricken at the Jyotirlinga.

The hamsa, after entering the heavenly regions, meets on the way with a descending *Ketaka* flower which has been jerked down from the top of the Jyotirlinga. Remarks :—The beginning of the Second Adhyāya “ये यज्ञेन दक्षिण्या समक्ता” is given after the Colophon.

The title page contains a pictorial representation of the worship of Śivaliṅga by Tripād Mahārṣi on one side and on the off-side three sages and two devout brāhmins are standing in an attitude of prayer. The place of worship is in or near Cidambaram. From the way in which the brāhmin devotees, are depicted, it seems probable that the Dīkṣitas of Cidam-

baram at that age had their tufts not in the centre but at the back of the head as is usual with others.

evidently the chief representative of the Dīkṣitas who are
official priests at Cidambaram for the worship of Sri Natarāja.
In Nos. 247, 251 & 262 the title page represented the worship
of the Mahāśivaliṅga at Cidambaram by the Sages Vyāghrapād,
Patañjali and Tripād. This series of pictures is closed by No.

 Page 534].

The title page contains a pictorial representation of the
 worship of the Lord Vaidyeśvara by the ten-headed demon
 Rāvaṇa. The place of worship is the modern Vaidīśvarankoil
 in the Tanjore Dt. Rāvaṇa made the supreme sacrifice to
 satisfy the Lord Mahādeva by offering his heads one after an-
 other in the sacrificial fire. When the tenth and last bit was
 about to be offered, the Lord was pleased and stopped Rāvaṇa
 at the last minute. He appeared as the Divine Doctor and
 reset the lost heads on Rāvaṇa. Hence the name of Vaidyeś-
 vara to the Lord Mahādeva. On one side of the title page,
 Rāvaṇa is shown worshipping the Lord and on the other side
 his attendant demons all standing in an attitude of ecstatic
 prayer. The demons are depicted with long upturned noses
 in the form of a scythe.

The विनियोग of हरिसूक्त is thus given in the R̥gvidhāna of Śaunaka:

“ अध्वानं प्रस्थितश्चैव मामनैरिति संस्मरेत् ।

कार्याण्यशेषतः कृत्वा पुनरायाति वै गृहम् ॥ ”

This Sūkta is not in ordinary usage but is evidently intended to assure the safe return of a traveller back to his native home.

Subject : R̥gartharatnamālā—a commentary on some selected
r̥ks of R̥g-Veda Samhitā. First Adhyāya complete
and a part of second Adhyāya.

Remarks :—This Ms. abruptly breaks off at the beginning of the
Second Adhyāya. This Ms. is in a fairly good condition. It
also contains four fragmentary leaves written in Nandināgari
script. Regarding the author of this Ms. Dr. Burnell observes
on page 4 foot-note of his Catalogue as follows :—“It appears
from Verzeichniß. p. 27 (No. 106), that one Varadattasuta

Ānartīya commented the Sāṅkhāyana Śrauta Sūtra, and this is probably the writer here alluded to (in the beginning of this Ms). It seems to me not unlikely that this Ms. (described above) is a fragment of Mahīdhara's commentary on the Ṛg-Veda ("Catalogue of Sanskrit Mss. existing in Oudh", pp. 2, 3 of Fasc. i.). There is no other commentary (except perhaps Ātmānanda's which is in the I. O. Library) that I can suggest. I have, however not seen either." He also adds—"As the author (of this Ms.) considers the Ṛg-Veda to teach Nārāyaṇa to be the Supreme Being, this commentary cannot be old."

Pāvamāna; Āraṇa and Śakvari Parvas.

Remarks :—The Ms. is in a fairly good condition. Regarding the
author Burnell has the following in page 11 of his catalogue.
“Bharata Svamin was the son of Nārāyaṇa and Yajñadā and
lived at Serīngapatam, in Mysore about the end of the 13th

century under the patronage of the Hosala family a Canarese dynasty originally Jains, and converted by Rāmānujācārya about 1150 to the Vaiṣṇava faith. Rāma reigned at Devagiri from 1272, 3—1310, and this commentary must, therefore, have been composed within that period. It is very concise, and there is every reason to believe that only the Pūrva-ārcika, Āraṇyaka Saṃhitā, and Mahanāmni hymns were commented on by Bharata Svāmin, for there is no trace of a commentary on the Uttarārcika by this author; and here 9,112 (Bharata-svāmin's commentary) and 9,108 (Sāyaṇa's commentary on the Uttara-Arcika) formed part of the same Ms. originally. I have seen this occur in another instance. Śaunaka, the Aitareyabrahmaṇa, Āśvalāyana sutra, the Taittirīyaka, Bahvṛca Upaniṣad and apparently Yāska are quoted, so far as I have examined this commentary."

A transcribed copy of this Ms. in paper is also available in the Library. See Transcript Volume No. 43, the date of copying being the 10th Jan. 1915. [Ref. T. V. 43 (No. 11.)]

Subject: Black Yajur-Veda Samhitā Bhāṣya—Jñāna Yajña.

First Kāṇḍa. 1-8 Prapāthakas.

Remarks:—The Ms. is in very good condition. Regarding the author Bhaṭṭabhāskara, Dr. Burnell gives the following on page 7 of his Catalogue:—“Bhaṭṭa Bhāskara Miśra is quoted by Sāyaṇa, and according to tradition lived about 950—1000 A. D. He must not be confounded with Kaśyapa Bhaṭṭa Bhāskara, who wrote a Sāmavedārṇeyadīpa, or index (about 1000 granthas) to the metres, *ṛis* and duties of the Sāmaveda P. A., and who probably lived in the fourteenth century. (C. C. on the Sāmaveda Brāhmaṇas are attributed to this author, but I have not seen them. This Bhaṭṭa Bhāskara quotes Bharata Svāmin). The quotations in this work, though meagre, are interesting. In the parts I have been able to examine, besides Bhavasvāmin, the Taittirīya Anukramaṇī, Mānava Dharmasāstra and Pāṇini, Yāska K. i. 1, 13—regarding ‘पयः’ (N. ii. 5), Pr. 2, 80—regarding ‘अतिथि’ (N. IV. 5) are

cited. In K. ii. 1, 5, the opinion of Bharadvāja is quoted. In the same Kāṇḍa, Praśna iv. Anuvaka 14, there is an interesting discussion on a passage cited from some work on Astronomy -

अत्र चन्द्रगुणकीर्तनेनाऽदित्या एव स्तूयते.... तथा हि सूर्योभिमुखो-
गोळश्चन्द्रोऽम्बुमयः स्वच्छः । इति तस्मादस्य दिवसकरमरीचिसमा-
श्लेषेण भास्वरत्वं भवति ; यथाहुः—

भाग्रहाणां गोळार्धानि स्वच्छायया विवर्णानि ।

अर्धानि यथासारं सूर्याभिमुखानि (प्र) दीप्यन्ते ॥

इति तस्माच्चन्द्रमसो गोळार्धं सूर्याभिमुखं यदा चकास्ति किं सर्वदा
चकास्ति किं इति नोऽपलभ्यते श्रूयतां ; अमावास्यायां चन्द्रमसः ;
तदा चन्द्रमस उपरि यद्विम्बार्धं तदेशेषं अवभासयति सविता ।
चन्द्रस्यामावस्योपलक्षितोपरिविम्बकेन्द्राद्यथा यथा पश्चादादित्योऽ-
वलंबते, तथा तथा चन्द्रमसो विम्बकेन्द्रमप्यवरतोवलम्बते, तत्के-
न्द्रवशाच्चन्द्रमसो विम्बार्धशेषमाभासयति सविता यावत् एवाऽ-
स्योपलक्षित विम्बपरिध्योरधोवलम्बते तावच्चन्द्रमसो विम्बस्यास्मा-
भिरुपलक्ष्यते शेषमुपस्थितत्वान्नोपलभ्यते । सूर्याभिमुखं भास्वरम-
पि अस्माभिरुपलब्धुमयोग्यत्वात् ॥

In Pr. iv. the Vāyupurāṇa, several upaniṣads and also authors of Smṛtis are quoted (v. Z. D. M. G. XIX. 154). Towards the end this commentary becomes a mere paraphrase with an occasional brief explanation of an unusual form or accent. At the end of the Kāṇḍas in some Mss., it is stated that Bhaṭṭa Bhāskara composed this commentary;

‘एष निष्पावकेशाके कौशिकान्वयजन्मना ।

भट्टभास्करमिश्रेण ज्ञानयज्ञः प्रकीर्तितः ॥’

This proves that he was a Telugu Brāhman, as they only take names of plants for their family names. His name was thus (re-translating the two words) Anumula Bhaṭṭa Bhāskara. This family name is still a common one.”
